Visit Us at AMCHP

The DRC will be at the upcoming 2012 Association for Maternal and Child Health Programs (AMCHP)

View New State Ranking Maps

Figure out how your state measures up on the 2009/10 NS-CSHCN indicators and outcomes by accessing our new U.S. data maps. These maps show how your state compares to the national average. Click on the map icon below to get started.

Trend Data from 3 Years of the NS-CSHCN

Check out the new data trending feature on the Data Resource Center (DRC) website! Now you can compare select outcomes and indicators from the 2001, 2005/06 and 2009/10 National Survey of Children with Special Health Care Needs (NS-CSHCN). Visit our new "[Browse Data Trends](#)" webpage. Learn more about comparing [outcomes](#) and [indicators](#) across multiple years of the NS-CSHCN.

Example of NS-CSHCN Trend Data

Indicator 1: CSHCN whose health conditions consistently and often greatly affect their daily activities (details)

Select a Response Category:

		2001	2005/06	2009/10
Nationwide	%	23.2	24.0	27.1
	C.I.	(22.4 - 24.0)	(23.2 - 24.7)	(26.2 - 27.9)

C.I. = 95% Confidence Interval. Percentages are weighted to population characteristics.

Conference in Washington, D.C. from February 12 to 14. Find us at **Booth #49** in the Ambassador Ballroom of the Omni Shoreham Hotel.

MCHB DataSpeak is Available

The recent MCHB DataSpeak *Findings from the 2009-2010 National Survey of Children with Special Health Care Needs* on January 19, coincided with the release of the new survey data on the DRC website.

[View the January 19 MCHB DataSpeak](#)

MCH Epidemiology Training

[Apply](#) for the upcoming training course in maternal and child health epidemiology sponsored by MCHB and CDC in Denver, CO from May 29 to June 2, 2012. The application deadline is Friday, March 2, 2012 by 5 p.m. EST.

About Us

The DRC is a project of the CAHMI supported by the Health Resources and Services Administration, Maternal and Child Health Bureau.

Access New 2009/10 NS-CSHCN Data on Core Outcomes

Now online--subcomponent measures for each of the 6 Maternal and Child Health Bureau (MCHB) [Systems of Care Core Outcomes](#) for CSHCN have been added on the DRC website.

Take for example, the following five domains that form [Core Outcome #2](#): CSHCN who receive coordinated, ongoing, comprehensive care within a medical home *and* for which data on each subcomponent measure are now available.

1. [Medical Home Part A](#): Usual source(s) for sick and well care. Over a quarter (26.1%) of CSHCN without health insurance did not to have a usual source for sick and well care.
2. [Medical Home Part B](#): Personal doctor or nurse. 95.4% of CSHCN with private health insurance had a personal doctor or nurse versus 91% of CSHCN with public insurance.
3. [Medical Home Part C](#): No problems obtaining referrals. Among CSHCN who needed referrals during the past 12 months, 29.9% of CSHCN with emotional, behavioral or developmental issues had problems obtaining referrals.
4. [Medical Home Part D](#): Receives family-centered care. 72.3% of CSHCN with adequate health insurance received family-centered care compared to 52.0% of CSHCN without adequate insurance.
5. [Medical Home Part E](#): Receives effective care coordination. Only 29.5% of CSHCN with one or more period of inconsistent health insurance coverage received effective care coordination, while 43.6% of CSHCN with consistent health insurance coverage received effective care coordination.

Read more about the relationship between each core outcome and healthy development of CSHCN over the life course in a series of [data briefs](#).

DRC Indicator Data Set and Codebooks

Register to receive an enhanced analytical data set and codebooks for the 2009/10 NS-CSHCN interview data file. [Sign up](#) today and you will be notified as soon as the data set is complete and ready to distribute.

Learn About CSHCN Conditions and Functional Difficulties

Find out how individual health conditions and functional difficulties were measured in the 2009/10 NS-CSHCN as well as how conditions and functional difficulties impact the health of CSHCN in [2 new data briefs](#) now available on the DRC website.
